

SAIL SAFE

For Sailings Beginning September 3, 2022

As the world continues to open up, luring travelers to explore their favorite destinations once again more freely, we have updated our health and safety protocols to further align to those of the broader travel, leisure and hospitality industry worldwide. The relaxation of global protocols and travel requirements, makes it easier for guests to return to sea with us. As such, for sailings beginning September 3, 2022, all travelers are invited to sail with us once again, regardless of vaccination status.*

**See below for protocols by age and vaccination status.*

Requirements may vary by country – refer to Cruise Travel Requirements by Country.

Pre-Cruise and Onboard Protocols

SAFETY FOR OUR GUESTS AND CREW

Mandatory Vaccination Requirement for all Adults & Crew

Vaccination Requirements

For sailings embarking September 3, 2022 and beyond:

Guests ages twelve and over will be allowed to board unvaccinated. Unvaccinated guests age twelve and over will be required to show proof of a medically supervised negative PCR or Antigen test taken no more than 72 hours prior to embarkation.

For guests aged 11 years or under, no additional protocols or testing requirements apply.

Local regulations may have different requirements to enter certain countries – make sure to check Travel Requirements by Country to understand country specific requirements. Guests may be denied boarding if all country specific requirements are not met.

Pre-Embarkation Health & Safety Preventative Measures

Testing & Pre-Embarkation Protocols

For all sailings September 3, 2022 and beyond:

For all cruises (unless country requirements differ – refer to Cruise Travel Requirements by Country).

Age	Vaccinated	Unvaccinated
< 11 years	No testing requirement.	No testing requirement.
≥ 12 years	No testing requirement.	Proof of a medically supervised negative PCR or Antigen test taken no more than 72 hours prior to embarkation is required

Face Coverings

Masks are optional on all sailings.

Increased Sanitation, Upgraded Air Filtration, Enhanced Health Services

SAFETY ABOARD OUR SHIPS

Continuous Ship-Wide Cleaning & Disinfection Measures

Comprehensive enhanced cleaning and sanitation protocols, using EPA approved disinfectants, have been implemented throughout the cruise experience.

Upgraded Medical-Grade Air Filters

We are strategically installing medical-grade air filters of the highest filtration grade, MERV 13 or HEPA, capable of removing 99.9% of airborne pathogens, including COVID-19, and implementing new bi-polar ionization technology.

Enhanced Onboard Medical Teams & Health Services

We have improved our onboard medical capabilities with additional staffing relative to capacity and enhanced facilities including new and upgraded equipment and onshore medical institution partnerships.

Dedicated Public Health Officer

All ships will sail with a dedicated Public Health Officer on board that will oversee the day-to-day sanitation and cleanliness of all public areas and accommodations.

Thorough & Effective Mobilization Plan in Event of Outbreak

MOBILIZATION & RESPONSE

Contact Tracing

If a positive case of COVID-19 occurs, we have various contact tracing methodologies to identify and notify those who may have been exposed.

Isolation/Quarantine

Dedicated isolation and quarantine accommodations will be available if needed. We follow CDC and Local Health Authority policies and guidance in regards to isolation and quarantine for positive cases and close contacts.

Debarkation Scenarios

We have developed a thorough mobilization and response plan focused on collaborating with local authorities and coordinating safe passage home for all guests and crew should the need arise. We have also established relationships with onshore medical institutions and enhanced our telemedicine consultation capabilities.
